Understanding exploitation

Online awareness session for parents and carers

Wolverhampton's Partnership Exploitation and Missing Hub welcomes parents and carers to an online awareness session to help you understand exploitation — a form of 'harm outside the home' that can happen online or in the community.

What will we cover?

- What exploitation is and how it can happen, both online and in the community.
- Signs to look out for that may suggest your child or the child you care for needs help or support.
- How to talk with your child / the child you care for about exploitation and keep conversations open.
- What to do if you are worried, which services can support you and your family, and how to access help.

You do not need to have a specific concern to join. This session is about building understanding, knowing what to look out for and finding support if you need it.
